**Directions:**

**Aromatic** - Diffuse using 2-3 drops per 100 mL of water or use in a personal inhaler.

**Topical** - Dilute to 2-3% in a carrier.

## DESCRIPTION

Peach Artemisia, also known as Owyhee, is a fruity artemisia that is found in the Owyhee region of the western United States. This oil is produced from plants that grow in the wilds of Oregon, Nevada, and Idaho. Its fragrance is one of the silkier, more delicate aromas from the Artemisia genus and adds a nuanced, honeyed complexity. The top note is fruity with a hint of balsamic, while the peachy backnote gives Peach Artemisia its name, and makes it perfect for DIY perfumery or cologne blends. This essential oil offers many therapeutic benefits to complement its lovely, unique scent. When used topically, Peach Artemisia offers restorative properties that help with redness and irritation on the surface, while soothing sore muscles and joints underneath. Additionally, Peach Artemisia is a calming oil that can help ease anxiety and promote deep, restful sleep.
