

Passive Diffuser Pinecones

WHAT YOU'LL NEED:

- Small pinecones
- 1 large zip-top bag
- 20 drops Fireside Flannel or
Autumn Breeze
- 0.5 oz. Everclear
- 1.5 oz. water
- 2 oz. spray bottle

Optional:

- Small bamboo skewers
- Hot glue gun

WHAT YOU'LL DO:

Combine your essential oils and Everclear in a two-ounce spray bottle and allow to meld. Fill the remaining bottle with water and shake well. Liberally spray your pinecones and place in a zip-top bag for 1-2 days. Display scented pinecones in a decorative bowl.

Optional:

To turn pinecones into decorative picks for your floral arrangements, start by hot-gluing a small skewer or stick to the bottom of each pinecone. Then spray liberally and place in a zip-top bag for 1-2 days. Place scented pinecone picks in your fall wreaths and floral arrangements for an extra special touch.
